SURESH KRISHNA R

BUSINESS ANALYST | DATA ANALYST

Chennai, Tamil Nadu | rsureshkrishna02@gmail.com | +91 9342470575 | linkedin.com/in/sur-kri104

PROFESSIONAL SUMMARY

Recent Computer Science and Engineering graduate with hands-on experience in SQL, Python, Microsoft Excel, Power BI, data validation, data cleaning, statistical analysis, KPI reporting, and business performance analysis. Worked part-time and remotely as a Data Analyst at Boni Bytes Edutech, supporting research, trend analysis, and data quality checks. Project experience using Python, Pandas, SQL, and Power BI to clean and analyse datasets, identify trends, and communicate findings. Strong problem-solving, analytical thinking, communication, and collaboration skills with experience supporting reporting and process improvement.

CORE SKILLS

Business Analysis: Business Analysis, Business Insights, Requirements Analysis, Problem Solving, Root Cause Analysis, Process Improvement, Data-Driven Decision Making, Stakeholder Communication

SQL: SQL, MySQL, Joins, Subqueries, Window Functions, Aggregate Functions, Views, Triggers, Query Optimization

Data Analytics: Data Mining, Data Extraction, Data Cleaning, Data Processing, Data Validation, Data Quality, Data transformation, Data modelling concepts, ETL/ELT concepts, Data Management

Business Intelligence & Reporting: Power BI, Dashboard Development, KPI Reporting, Business Performance Analysis, Trend Analysis, Data Visualization, Excel Reporting

Data Science : Python, Pandas, NumPy, Matplotlib, Seaborn, Scipy, Tensorflow, Scikit Learn Fundamentals, Machine Learning, Google Cloud

Tools: Microsoft Excel, Microsoft Office, Power BI, MySQL Workbench, Google BigQuery, Git/GitHub, Claude, Open AI, Gemini AI, Antigravity

Professional Skills: Analytical Thinking, Communication, Collaboration, Leadership, Requirements understanding, Documentation

PROFESSIONAL EXPERIENCE

DATA ANALYST (Part-time, Remote) | BoniBytes Edutech | Nov 2024 – May 2025

- Reviewed and validated educational data and content records for accuracy, consistency, quality, and adherence to defined standards.
- Performed data quality checks, identified errors and inconsistencies, maintained structured records, and supported reporting and process improvement.
- Organized and standardized information to support accurate analysis, timely task completion, and reliable business reporting.

PYTHON DEVELOPER INTERN | VLGE INSTITUTE Pvt Ltd | Jul 2025 – Aug 2025

- Developed and tested Python-based applications using programming fundamentals, Python libraries, and database concepts.
- Debugged code, resolved technical issues, and supported application development and feature implementation.

PROJECTS & ANALYTICAL EXPERIENCE

Multi-Hazard Disaster Prediction System

- **Engineered** DisasterShield AI, a multi-hazard prediction platform leveraging Machine Learning and real-time weather data, satellite imagery, and historical disaster records to assess flood, cyclone, heatwave, drought, landslide, and coastal flooding risks.
- **Developed** a data-driven risk assessment system to identify vulnerable areas, estimate population and infrastructure exposure, and support early warnings and disaster preparedness to help minimize potential damage and protect lives.

Wildlife Crime Data Analysis and Risk Mapping

- Conducted **Exploratory Data Analysis (EDA)** using Python and Pandas to analyze wildlife crime datasets, identify trends and patterns, and evaluate crime frequency, severity, animal impact, and seizure-related relationships.
- Developed a **composite risk score** using weighted analytical indicators and created Matplotlib and Seaborn visualizations to compare risk levels and communicate data-driven insights.

E-Commerce Product Review Sentiment Annotation

- Annotated 1,000+ reviews by sentiment and intent and performed data cleaning and validation using Python and Pandas with 95%+ annotation accuracy.
- Built a Scikit-learn classification model achieving 87% accuracy and investigated labeling inconsistencies through data validation and preprocessing.

EDUCATION

Bachelor of Engineering – Computer Science and Engineering | Nov 2022 – May 2026

SKP Engineering College, Thiruvannamalai | CGPA: 8.20 / 10.00

CERTIFICATIONS & PROFESSIONAL DEVELOPMENT

- **AWS Training and Certification – Machine learning:** Machine learning fundamentals, supervised and unsupervised learning, model training and evaluation, feature engineering, data preprocessing, and AI/ML concepts on AWS.
- **Google Cloud Data Analytics (Google):** BigQuery, Looker, cloud-based data analysis and natural language data processing
- **Data Fundamentals (IBM):** Foundational knowledge of data science, analytics, machine learning, and NLU concepts
- **Google Cloud Engineering (Google):** Deployment, management, and scaling of cloud applications on Google Cloud Platform
- **Master Data Management (TCS iON):** Data governance, data quality management, SOP-based data operations
